Single POS: Retail Workspace AI

Our tools in Retail hinder natural conversation, which increases mental effort and information retrieval time.

Natural Conversation

43%
Transaction time spent in discovery

Employee Feedback:
"We should be able to input into the quote based on customer's needs we find out."

Effort & Time

35%
Sales look at billing first

Employee Feedback:
"It's difficult to bounce between account and quote during the conversation."

Today's Path to Purchase isn't aligned to the conversation.

The Golden Path:

(The highest probability forward path)

authentication → device_help → personal_shopper → order-landing → review_order → checkout → order_completion

Hubs of Friction (The Orange Alarms)

1. Account Help (17%) <> Device Help (23%)
2. Order Landing (53%)
3. Review Order Loop (17%)
4. Bill Inquiry Loop (6%)
5. Promotions (20%)

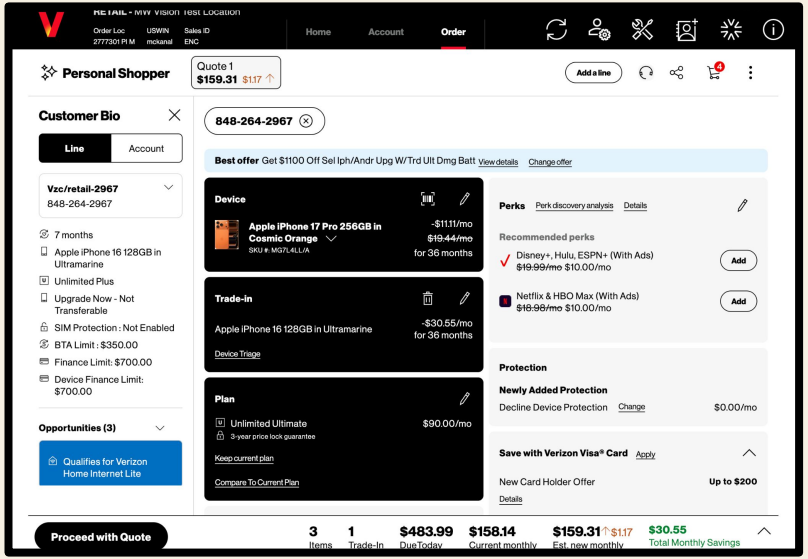
PS: The label (in %) gives weighted importance to all subsequent activities by quantifying the total traffic they receive

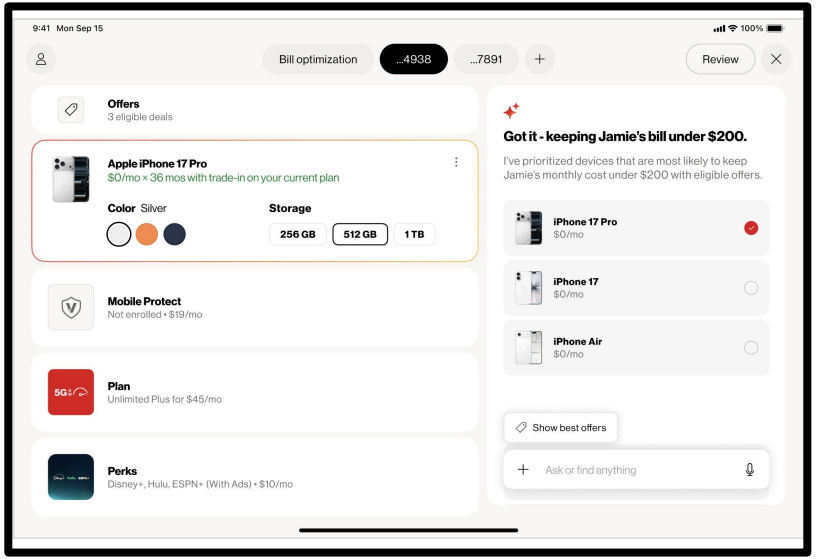
Complex AI cannot be bolted onto a complicated system...



AI Added on Top

The implementation of **Personal Shopper** illustrates how AI was bolted on to an inherently complicated system.

verizon



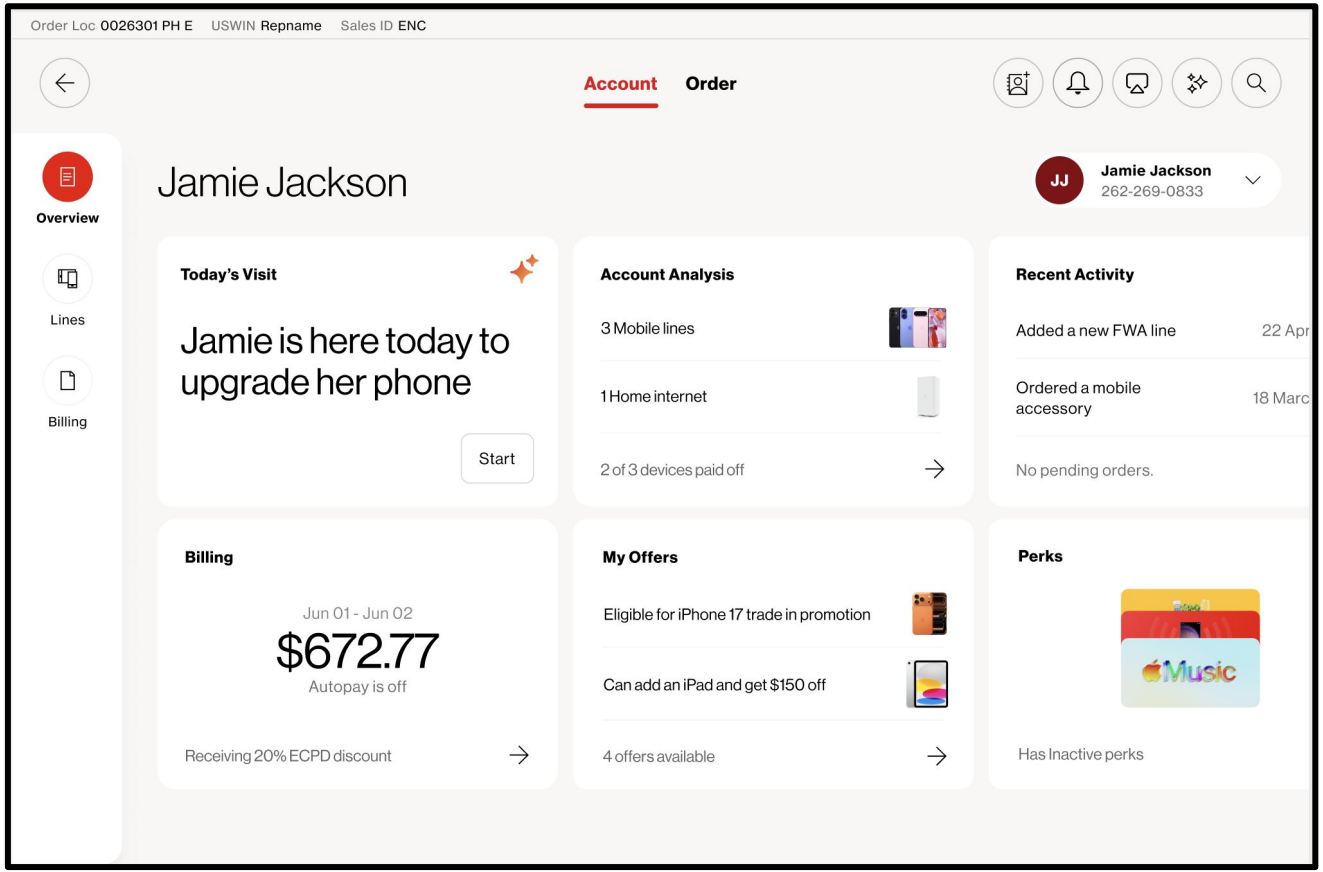
Built for AI

Retail Workspace AI will be built for AI, with a flexible UI, allowing AI to be seamlessly integrated into every moment of the experience.

Retail Workspace AI
Features

Know Your Customer (Account Landing)

Key customer information is displayed on a Dynamic Account Landing Page based on intent and learned details.



verizon

Retail Workspace AI
Features

During a customer interaction, the Rep maintains control over decisions, supported by AI recommendations and prompts when necessary.

1 AI Rep Companion & Search

The AI Companion guides reps, suggesting products or solutions, prompting discussion and capturing info. Search is at the rep's fingertips and AI Agents watch and improve the interaction.

2 Rep Controller & Canvas

Reps controls the direction of the transaction, can save items to the "Canvas" to configure quotes, share with larger screens, and move into a seamless checkout.
